Rohman Beny Riyanto

S1 Software Engineering

Summary

I majored in software engineering at the Telkom Institute of Technology Purwokerto. I have studied frontend development, UI/UX design for over 2 years and have 1 year experience in Flutter Developer. I am very interested in making design products, mobile applications, and other new technologies that can later help other people's work. I am ready to accept challenges because I like to learn new things.
